

# PALLAPU MANEESH KUMAR

DevOps Engineer

+91-9390330187 — maneeshkumar5161@gmail.com — LinkedIn — GitHub

## Professional Summary

DevOps Engineer with 3 years of experience in **CI/CD automation, release engineering, cloud-native platforms and infrastructure automation**. Hands-on experience with **Jenkins, GitHub, Terraform, Docker, Kubernetes, Amazon EKS, Helm and AWS services**. Skilled in Kubernetes deployments, service discovery, ingress routing, infrastructure automation and troubleshooting application, networking and database connectivity issues.

## Technical Skills

|                            |                                                                  |
|----------------------------|------------------------------------------------------------------|
| Cloud                      | AWS (EKS, EC2, IAM, VPC, RDS, Route53, S3, Load Balancer), Azure |
| CI/CD                      | Jenkins, GitHub, Git, Nexus Repository Manager, SonarQube        |
| Containers & Orchestration | Docker, Kubernetes, Amazon EKS, Helm                             |
| Infrastructure as Code     | Terraform                                                        |
| Monitoring                 | New Relic, Prometheus, Grafana                                   |
| Scripting                  | Shell Scripting, Python                                          |
| Operating Systems          | Linux                                                            |
| Databases                  | DB2, SQL, MySQL                                                  |

## Professional Experience

Cognizant Technology Solutions Oct 2023 – Present *DevOps Engineer* Bengaluru, India

### ENTERPRISE PLATFORM MODERNIZATION

- Designed and maintained **20+ Jenkins CI/CD pipelines** automating build, deployment, validation and rollback workflows.
- Integrated **SonarQube** and **Nexus Repository Manager** into enterprise CI/CD processes.
- Automated deployment and operational activities using **Shell Scripting**.
- Led migration of **50,000+ application modules** from a legacy version-control platform to **GitHub**.
- Reduced critical deployment activities from **3 hours to under 5 minutes** through automation.
- Participated in production releases, troubleshooting and rollback activities.
- Implemented monitoring and health checks using **New Relic** and automation scripts.
- Contributed to **Terraform** adoption and modernization from legacy **2-tier** to scalable **3-tier** architecture.

### CLOUD NATIVE APPLICATION PLATFORM

- Deployed containerized microservices on **Amazon EKS** using Kubernetes **Deployments, Services, ConfigMaps, Secrets and Ingress**.
- Implemented service discovery using **ClusterIP Services, CoreDNS, Endpoints and kube-proxy**.
- Configured **NGINX Ingress Controller** with path-based routing for multiple microservices.
- Integrated Kubernetes workloads with **Amazon RDS MySQL** using secure credential management through Kubernetes Secrets.
- Packaged applications using **Helm Charts** and reusable templates driven through **values.yaml**.
- Worked with **EKS Managed Node Groups**, worker-node scaling and Kubernetes scaling concepts.
- Troubleshoot **Pending Pods, CrashLoopBackOff, CreateContainerConfigError**, networking and service communication issues.
- Diagnosed and resolved issues involving **VPC networking, Security Groups, ConfigMaps, Secrets and RDS connectivity**.

## Education

Bachelor of Technology – Electronics & Communication Engineering Kalasalingam Academy of Research and Education CGPA: 8.3

## Certifications

- AWS Certified Cloud Practitioner — DevOps Certification (Udemy) — Cloud Computing Certification (Udemy)
